

Daugavpils Lead Shot Factory

The only one available for tourists ammunition plant in the Baltic States, where is the oldest shot tower in Europe, that still works. Examination of historical devices of the lead casting, with which molten lead gets the ideal bullet shape, falling from a height of 40 meters. There is the historical exposition of hunting ammunition. After the excursion everyone can try products in the factory dash. Note: excursions are not conducted during the runtime of the factory orders.

ATTENTION!!! The visitor agrees to comply with DSR safety rules and recognizes the potential risk to health!

Daugavpils Lead Shot Factory is 3rd prize winner in the competition of ECTN (European Cultural Tourism Network) – “Destination of Sustainable Cultural Tourism 2015” (the theme for 2015 was “Industrial Heritage Tourism”).
