

Jaundome manor environmental education center

Museum

Built in the early 19th century, the Jaundome manor is located on the territory of the Razna National Park, in Jaundome, Ezernieki parish. The Jaundome manor environmental education center and Exhibition Hall has been created in a restored barn building with stone walls.

Jaundome environmental education center offers:

view one of the largest collections of freshwater fish mules in Latvia and get acquainted with the diversity of waterfowl in Latgale, as well as view other exhibits related to the role of fishing and hunting in human life.

visit the territory of the Jaundomes manor and the nature trail. Where you can familiarize yourself with fascinating evidence of the history of the manor and enjoy the diversity of Latgales nature. Jaundomes nature trail leads to Ežezers – the lake with the most islands in the Baltics.

to taste the delicious meal from the hostesses of the Jaundome manor (by applying in advance).

rental of premises for the organization of conferences and festive events.
